## ACCOUNTING SOLUTIONS

### SEACHANGE PORT MACQUARIE'S SILVER PARTNERS FOR XERO CONNECT IN THE CLOUD IN 2017 WITH ONLINE ACCOUNTING

A new year, a fresh start. If your business is considering cloud based accounting, now's the time to say goodbye to complicated, clunky software and switch to Xero.

SeaChange are launching The Xero Sessions on 21st February 2017. You can bring your bookkeeping into the cloud and be connected anytime, anywhere with employees, suppliers and your accountant.

If you'd rather be at the beach than baffled by paperwork switching to Xero and making use of accountants with expertise in cloud accounting is a game changer.

#### CASE STUDY: Bookface Cafe Port Macquarie

The award winning Bookface Cafe is located behind Port Central nestled in the corner of the bookshop. It's a favourite with locals and the team recently won the Best Restaurant and Cafe Category in the 2016 Chamber of Commerce Awards and Port Central Retailer of the Year Award.

Since opening its doors two years ago Book-

face Cafe has served countless coffees, delicious gluten free treats and sought after salads.

The friendly team are so busy creating healthy snacks that finding time for bookwork is a challenge. We chat to Jo Hawes, Manager and Owner of Bookface Cafe, about why she loves Xero.

#### When did you start using Xero?

We bought the business 18 months ago and Xero was already in place. I'd never used it before but it's so much easier than other accounting software. There's inbuilt help, YouTube videos and it's self explanatory. Other products are very confusing and it's really hard to get help.

#### What's the biggest benefit to your business?

We're a busy cafe with 10 or more staff so Xero makes it so easy to manage the payroll. The team all have the Xero app on their smartphones and log their hours which I approve and accept. It's a real time saver and so easy.

#### Why do you choose SeaChange Port Macquarie's Silver Xero Partners to help manage your accounting?

SeaChange are efficient, friendly and easy to work with. I can email them in the evening and have a response first thing the next day. SeaChange gave us training in how to use Xero and how to save time with features such as Auto Super payments. They help with payroll processing, bank reconciliations and BAS preparation. Thanks to SeaChange our POS system and Xero are linked so our daily sales information feeds straight into Xero.

#### Why do you love Xero?

I've reduced the amount of time I spend on weekly bookwork by a third. Xero has made life

so much easier. I love that I can log in at home or work. Online invoices, reminders and the help available are just some of the great features.

#### SeaChange Xero Sessions

Xero has revolutionised accounting for small to medium sized businesses. Find out how cloud accounting can help you build a better business. SeaChange offer obligation free demonstrations as well as tailored training. Or choose to attend a SeaChange Xero Session in business hours or after hours at the SeaChange office in Gordon St. Register at [Seachangeaccounting.com.au](http://Seachangeaccounting.com.au) or call 1300 425943.
